Directadmin : Cara Disable Modsecurity Default OFF Setiap Domain Baru

Bagaimana cara mendisable modsecurity di setiap domain baru di control panel directadmin? maka berikut ini adalah caranya.

```
nano /usr/local/directadmin/scripts/custom/domain_create_post.sh
```

isi dengan

```
F=/usr/local/directadmin/data/users/$username/domains/$domain.modsecurity_rules
if [ ! -f $F ]; then
echo "" > $F
echo "SecRuleEngine Off" >> "$F"
/usr/bin/chown diradmin:diradmin $F
fi
```

untuk subdomain

```
nano /usr/local/directadmin/scripts/custom/subdomain_create_post.sh
```

isi dengan

```
# ModSecurity disabled for new subdomains
D=/usr/local/directadmin/data/users/$username/domains/$domain.subdomains_modsecurity_rules
F=/usr/local/directadmin/data/users/$username/domains/$domain.subdomains_modsecurity_rules/$subdomain.modsecurity_rules

if [ ! -d "$D" ]; then
mkdir -p "$D"
/usr/bin/chown diradmin:diradmin "$D"
fi

if [ ! -f $F ]; then
echo "" > $F
echo "SecRuleEngine Off" >> "$F"
/usr/bin/chown diradmin:diradmin "$F"
fi
```

Selesai, selamat mencoba.
