PHP-FPM failed to make connection to backend: httpd-UDS 1

PHP-FPM failed to make connection to backend: httpd-UDS

Error ini disebabkan service php-fpm mati dan solusinya adalah menyalakan kembali servicenya.

```
kill php-fpm
```

Kemudian nyalakan service php-fpm satu per satu

```
/etc/init.d/php-fpm56 restart  
/etc/init.d/php-fpm72 restart  
/etc/init.d/php-fpm73 restart
```

Done
