Directadmin Rebuild Missing User List / Blank User List

Bisa dicoba

```
#!/bin/sh

cd /usr/local/directadmin/data/users

for r in `ls */reseller.conf | cut -d/ -f1`; do
{
    echo "fixing Reseller $r ...";

    echo -n '' > $r/users.list

    for u in `grep creator=$r */user.conf | cut -d/ -f1`; do
    {
        ISUSER=`grep -c usertype=user $u/user.conf`
        if [ "$ISUSER" = "1" ]; then
            echo $u >> $r/users.list
        fi
    };
done;
};
done;
```

dan

```
echo 'action=cache&value=showallusers' >>
/usr/local/directadmin/data/task.queue
/usr/local/directadmin/dataskq d800
```
