Mengaktifkan Akses SSL/Htpps Control Panel Directadmin Port 2222 1

Mengaktifkan Akses SSL/Htpps Control Panel Directadmin Port 2222

Berikut ini adalah cara mengaktifkan akses control panel directadmin via ssl atau https

```
/usr/local/directadmin/scripts/letsencrypt.sh request_single `hostname -f` 4096
```

Selanjutnya

```
cd /usr/local/directadmin
./directadmin set port 2223
./directadmin set ssl 0
./directadmin set ssl_port 2222
service directadmin restart
```

tambahkan di directadmin.conf

```
ssl_redirect_host=host.name.com
force_hostname=your.hostname.com
```

dan restart directadmin
