Merubah Versi PHP di Directadmin

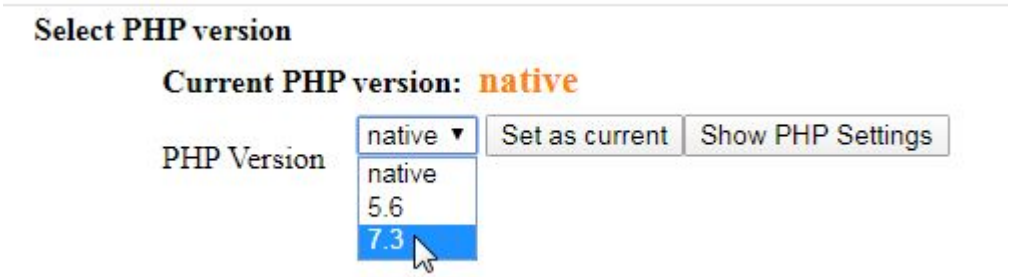
Bagaimana cara merubah versi PHP di control panel hosting directadmin? Adapun tahapannya adalah sebagai berikut :

> Tutorial ini menggunakan Directadmin terbaru Evolution Skin

<iframe width="560" height="315" src="https://www.youtube.com/embed/YNtK_ypeBcU" title="YouTube video player" frameborder="0" allow="accelerometer; autoplay; clipboard-write; encrypted-media; gyroscope; picture-in-picture" allowfullscreen></iframe>

1. Di menu pencarian ketik "select php"

   atau anda bisa menemukan menunya di kategori **Extra Features**
2. Pilih **PHP 7.3** atau diatasnya kemudian klik **Set as Current**



3. Selesai
