Solusi Directadmin Error : user too large, delete on background The process will actually just be the dataskq 1

Solusi Directadmin Error : user too large, delete on background The process will actually just be the dataskq

Error ini disebabkan disk data user yang akan dihapus terlampau besar sehingga directadmin menghapusnya melalui background. Sebagai solusi alternatif agar bisa dihapus langsung yaitu dengan menaikkan variable `get_background_delete_size`.

Adapun tahapanya adalah sebagai berikut :

```
nano /usr/local/directadmin/conf/directadmin.conf
```

tambahkan atau ubah `get_background_delete_size` menjadi lebih besar misal

```
get_background_delete_size=20480
```

Kemudian restart directadmin.
