Bash Command Cut 1
Menghapus comma dari hasil tail 1

Bash Command Cut

Command cut berfungsi untuk memotong string dan berikut adalah beberapa tutorial

Menghapus comma dari hasil tail

Menghapus string comma dari hasil output tail

file log

```
140.213.7.40, lip=51.79.129.55, TLS, session=<srEfkWiwrZiM1Qco>
140.213.7.40, lip=51.79.129.55, TLS, session=<srEfkWiwrZiM1Qco>
139.99.30.6, lip=51.79.129.55, session=<h6hSkWiwjqeLYx4G>
139.99.30.6, lip=51.79.129.55, session=<h6hSkWiwjqeLYx4G>
114.122.203.12, lip=51.79.129.55, TLS, session=<bsaqkWiwFthyessM>
```

dilakukan filter dengan cara

```
tail -n 200 /var/log/maillog | grep failed | awk -F"rip=" ' {print $2}' |
cut -d, --output-delimiter ' ' -f 1,2
```

hasil output

```
125.161.136.199  lip=51.79.129.55
125.161.131.93  lip=51.79.129.55
125.161.131.93  lip=51.79.129.55
114.124.142.92  lip=51.79.129.55
36.88.112.185  lip=51.79.129.55
```
