Bash Script Auto Restart HTTPd Apache Directadmin 1

Bash Script Auto Restart HTTPd Apache Directadmin

Berikut ini adalah contoh script auto restart apache pada control panel hosting directadmin

```
#!/bin/sh
status=$(wget -q0- http://localhost)
echo $status
if [[ $status = *"Apache is "* ]];
then
    echo "working";
else
    echo "httpd down - restart httpd"
    /etc/init.d/httpd restart
    echo "done"
fi
```
