Glusterfs Not Start Failed to resolve brick

Catatan Pribadi glusterfs error setelah detach dan tidak bisa di start keluar Failed to resolve brick /testvol with host sgjul19 of volume testvos in restore

Solusinya install ulang gluster

```
yum -y remove glusterfs-server
yum -y install glusterfs-server
```

dan ketika install ada error yang menuju ke path testvos sebagai volumenya dan saya delete

```
rm /var/lib/glusterd/vols/testvos -rf
```

gluster saya start dan sukses
